then they translated it into english and now hope to translate and publish it in other languages as well i believe that their purpose is to transmit the knowledge and awareness they have about the topic of space science and technology to young children all across bharath inspiring them to dream big they selected human spaceflight as the topic because in their opinion it is the most adventurous sport and not accessible to everyone although all of us have reasons to dream of being one who will fly to space one day

essay from the year 2020 in the subject literature asia language english abstract this paper deals with four major short stories of ruskin bond where railway station is the setting and bond attempts to build private relations in public atmosphere i have not specifically dealt with space theory but certain concepts like auge s idea of non place tuan s meaning of existence and the relation between man and environment which were necessary while justifying the tendency of the author to transform the railway station into a private place for expressing his character s personal desires the bond of human relationships emphasizes bond s understanding of the human mentality nature thoughts and behaviour bond s stories display human feelings like affection care kind heartedness insecurities sorrow and disgust as his art is often referred to as autobiographical his characters are real and we can find them in our neighbourhood the incomparable way in which he alters the unexciting dull things in our everybody life into something really striking and interesting fascinate not only the common reader but also the literary world travelling and communication with masses is equally important for humanity which makes one socially upgraded and sometimes may give birth to inventive artists like ruskin bond

essay from the year 2015 in the subject leadership and human resources miscellaneous grade b sophia antipolis campus france skema business school language english abstract within my research paper i analyze how the further development of robotic devices will influence our working environment robots are going to change the global economy drastically with severe effects on the job market as recent studies outline in the united kingdom alone one third of jobs could be omitted due to the robot revolution in the united states with 47 percent even almost half especially in low skilled job fields robots could take many working spaces of human beings enormous social shifts would result even though a lot of people argue that technical advancement and therefore the further development of robotic devices bring advantages to our lives for the most part we have to start to realise that robots may replace our jobs and therefore adapt to a changing work environment more and more people are outcompeted by a non living species an unlikely scenario that though will take place in the future and therefore people have to learn to deal with this new setting
